PPE ESSENTIALS

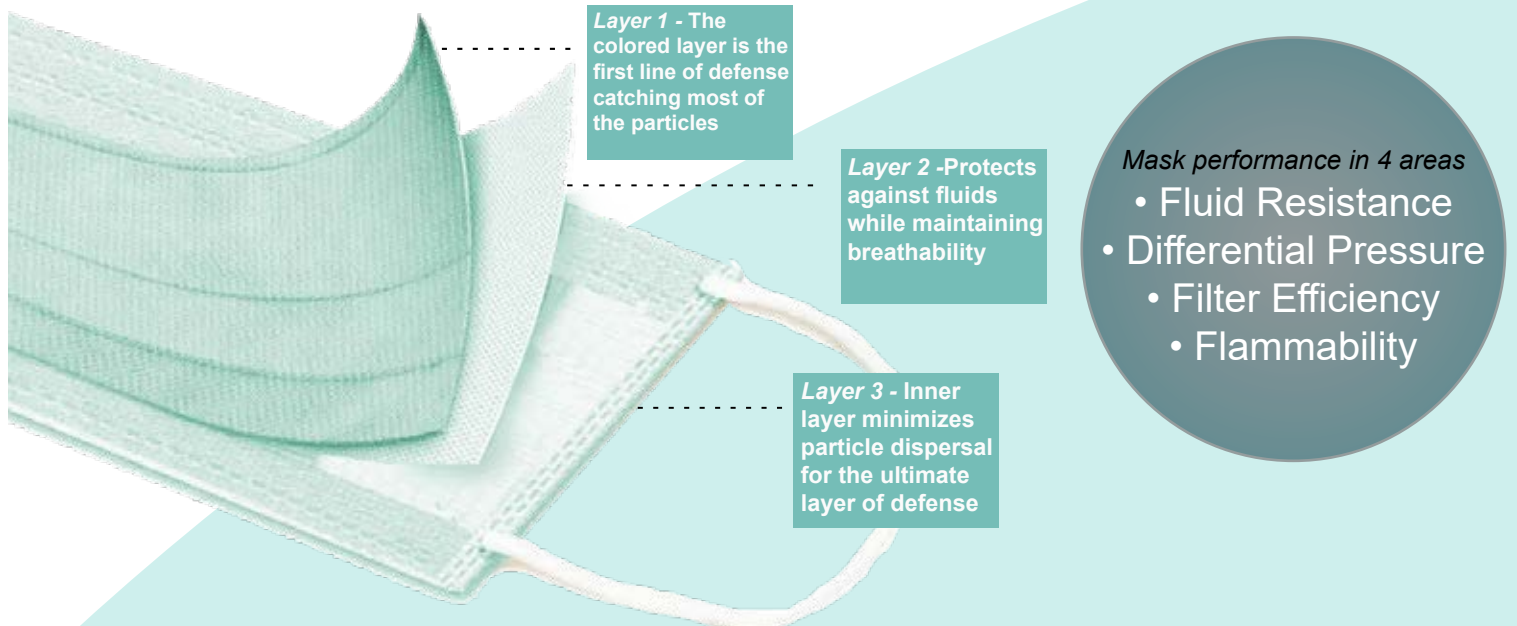

TIGRIS - Levels of Protection

The primary difference between levels is in the fibers. The higher the level, the more protection, the tighter the fibers, and the thicker the layers. Each level is suited to certain situations as illustrated in the tables below.

VastMed's TIGRIS brand masks come in 2 different styles. Surgical Barrier Face Mask (Tie-On), and Surgical Barrier Ear Loop Mask. They are available in different levels of protection, as illustrated below.

ASTM International has been long-held as one of the largest standards for the testing of face masks in 4 areas and is recognized by the FDA. According to ASTM Standard F2100-11, there are 4 levels of protection that can be achieved by looking in depth into the layers of a mask. VastMed TIGRIS face masks are 3PLY, and specially made to follow the ASTM guidelines.

ASTM F2100-11 Standards	ASTM Level 1	ASTM Level 2	ASTM Level 3
Fluid Resistance mmHg	80	120	160
Bacterial Filtration Efficiency	≥95%	≥98%	≥98%
PFE @ 0.1 micron	≥95%	≥98%	≥98%
Delta P, mm H2O/cm2	< 4.0	< 5.0	< 5.0
Flame Spread	Class 1	Class 1	Class 1

Level 1 Protection:

- Ideal for procedures where **low** amounts of fluid, spray and/or aerosols are produced.

Level 2 Protection:

- Ideal for procedures where low to **moderate** amounts of fluid, spray and/or aerosols are produced.

Level 3 Protection

- Ideal for procedures where moderate to **heavy** amounts of fluid, spray and/or aerosols are produced.

Masks and Facial Protection

8

Ear Loop Face Mask 3.0 L1

- Medical or Surgical grade
- General use for low-risk, nonsurgical procedures and exams
- Not ideal for uses that involve aerosols, sprays and fluids
- BFE: 98%
- 50/BOX

Ear Loop Face Mask 3.5 L2

- Medical or Surgical grade
- General use for medium-risk, nonsurgical procedures and exams that involve aerosols, sprays and fluids
- BFE: 98%
- 50/BOX

Ear Loop Face Mask 4.0 L3

- Medical or Surgical grade
- Ideal for procedures where moderate to heavy amounts of fluid, spray and/or aerosols are produced.
- BFE: 98%
- 50/BOX

Ear Loop Face Mask L4

- Surgical grade
- Maximum barrier protection for situations that could potentially expose the user to heavy levels of aerosols, sprays and/or fluids
- BFE: 98%
- 50/BOX

Medical Tie-On Face Mask 3.0 L1

- Tie-on loops mask design
- BFE: 98%
- Level 1 protection
- 50/BOX

Medical Tie-On Face Mask 3.5 L2

- Tie-on loops mask design
- BFE: 98%
- Level 2 protection
- 50/BOX

Surgical Tie-On Face Mask 4.0 L3

- Tie-on loops mask design
- BFE: 98%
- Level 3 protection
- Intended for use by operating room personnel during surgical procedures to protect both the patient and the medical personnel from transfer of microorganisms, bodily fluid, and particulate material.
- 50/BOX

Surgical Tie-On Face Mask L4

- Tie-on loops mask design
- BFE: 98%
- Level 4 protection
- Intended for use by operating room personnel during surgical procedures to protect both the patient and the medical personnel from transfer of microorganisms, bodily fluid, and particulate material.
- 50/BOX

VMTBFSAFx10x20-LI

3PLY Mask with Visor 3.0 L1

- Level 1 protection
- Wrap around visor promotes full coverage
- Anti-Fog and Anti-Glare visor ensures clear view at all times
- Padded nose band extends wear time
- >98% Bacterial Filtration Efficiency (BFE)
- Convenient ear loop design allows you to slip on and remove mask quickly and easily.
- 15/BOX

Mask With Visor 3.5 L2

- Level 2 protection- Moderate levels of aerosols, sprays, and fluids
- Wrap around visor promotes full coverage
- Anti-Fog and Anti-Glare visor ensures clear view at all times
- Padded nose band extends wear time
- >98% Bacterial Filtration Efficiency (BFE)
- 15/BOX

VMSDMKB25B

Mask With Visor 4.0 L3

- Advanced protection with level 3 filtration from potentially contaminated water and airborne pathogens
- Wrap around visor promotes full coverage
- Anti-Fog and Anti-Glare visor ensures clear view at all times
- Padded nose band extends wear time
- >98% Bacterial Filtration Efficiency (BFE)
- 25/BOX

Individually Packed Masks

- **INDIVIDUAL PACKAGING
REDUCES RISK OF CROSS
CONTAMINATION**

- Level 2 (3.5) protection masks
- General use for medium-risk, nonsurgical procedures and exams that involve aerosols, sprays and fluids

- BFE: 98%

Automatic Temperature Measurement & Disinfection Machine

Large Capacity

Auto-Dispensing

Celsius or Fahrenheit

Temperature Measurement

Alarm Function

High Precision

HANDS FREE

- Easy convenient use
- Small size makes it convenient to place
- Can be used in any public area with high traffic to reduce risk of infection spread due to fomites
- Infrared camera measures temperature quickly
- Temperature displayed
- High temperatures sound alarm
- Can be switched from Fahrenheit to Celsius
- Hands free hand sanitizer dispenser
- Recommended use of 70% alcohol content
- Customizable advertisement space

VMHSDISWTEMP01

VMSTNHD01

Intelligent Sanitation Station System

VMBBOTH01

INTERFACE

- Easy to follow contactless interface
- Temperature monitoring via infrared cameras placed above the screen
- Ability to check if participant is wearing a mask (can be toggled on or off)

HAND SANITIZER

- Automatic dispenser for contactless sanitizing
- Recommended use of at least 70% Alcohol content
- Refillable (Can buy directly from VastMed)

PORTABILITY

- Wheel mechanism locks in place and lifts wheels off the ground so the machine sits on rubber foot stop at all times to reduce risk of accident
- Easily place wheels back on ground to move if needed

**FULL BODY
DISINFECTION**

**FACE MASK
DETECTION**

**NO CONTACT
HAND SANITIZER**

**FACE RECOGNITION
ACCESS CONTROL**

**CONTACTLESS
TEMPERATURE
MEASUREMENT**

SANITIZATION
IN 1 MINUTE

IF NORMAL, IT TAKES LESS
THAN A MINUTE FOR THE
ENTIRE PROCESS

**5 STEP PROCESS FOR 360
DEGREE SANITATION IN
HARD TO REACH PLACES**

**SANITATION MACHINE WITH
ONE WALL REMOVED FOR
CLARITY**

Recommended for :-

- Events
- Schools
- Government facilities
- Corporate offices
- Sports arenas
- Hospitals and clinics
- Convention centers
- Airports
- High traffic locations

FOG CHAM BER

- Filled with fog created from a disinfectant*
- Contact-less full body disinfection
- Fog touches areas that are considered hard to disinfect properly such as the bottom of the shoes, inside of the shirt, and surface of the clothes without damage
- The sanitation station prides itself on its easy to follow and use interface
- Fast moving fog surrounds entire body quickly
- Utilizes oscillations for seamless molding technology
- Host to large amounts of fog for complete coverage

HYPOCHLOROUS ACID

- Diluted with water when in the machine
- Broad spectrum anti-microbial
- Effective against both bacteria and viruses.
- Percent efficacy: 99.9%
- Usually used in the food industry to disinfect things such as water and dairy

TEST REPORT

REPORT No. ATS200600193-1E1

Test Conclusion Sample test, the project meets the requirements of GB 6675.4-2014 Regulations. As follows:

No.	Test Item(s)	Test Method	Unit	MDL	Technical index	Result	Individual judgment
						1#	
1	Soluble Antimony Sb	Ref.GB 6675.4-2014	mg/kg	2.5	<60	n.d.	Pass
2	Soluble Arsenic As		mg/kg	2.5	<25	n.d.	Pass
3	Soluble Barium Ba		mg/kg	2.5	<1000	n.d.	Pass
4	Soluble Cadmium Cd		mg/kg	2.5	<75	n.d.	Pass
5	Soluble Chromium Cr		mg/kg	2.5	<60	n.d.	Pass
6	Soluble Lead Pb		mg/kg	2.5	<90	n.d.	Pass
7	Soluble Mercury Hg		mg/kg	2.5	<60	n.d.	Pass

Body Temperature

Object Temperature

- Temperature in ONE second
- Supports body & object temperature readings
- Three backlights.
 - RED: High Temperature
 - RED: No temperature Reading
 - GREEN: Within Normal Human Temperature Parameters
- Supports silent mode
- Provide two temperature modes
 - °C and °F
- Memory recalls last 32 temperature readings
- Fever Reading Alarm (Over 37.5°C/99.5°F)
- FDA, 510k, CE & FCC certificates

High Temperature Warning

High Temperature:

The red backlight is on and the word [HI] displayed, then the product emits 3 "beeps".

Normal Temperature:

The green backlight is on and the product emits 1 "beeps".

No Temperature detected:

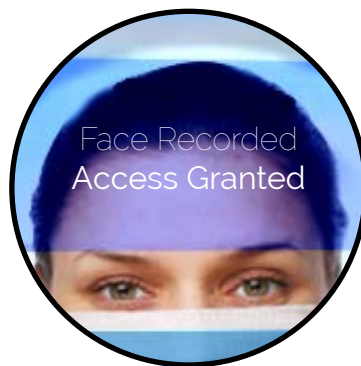

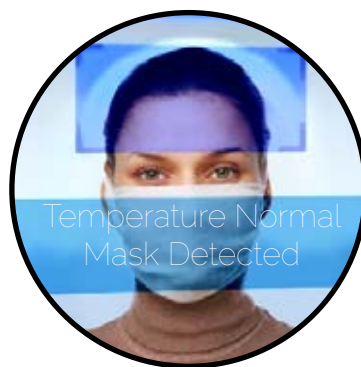

The red backlight is on and the word [Lo] displayed, then the product emits 3 "beeps".

Nitrile Gloves

- Latex Free
- Powder Free
- Soft nitrile material to provide the premium protection without restriction on hand movements
- This soft and stretchy glove is durable and puncture resistant with a fully textured surface for enhanced grip
- Textured fingertips and palm

Safety Glasses

- Anti-Fog lenses ensures clear view at all times
- Lightweight and low-cost protective eyewear
- Offers excellent protection from common practices

Medical grade mask

- Slip-on convenience
- Fluid resistance
- >99% Bacterial Filtration Efficiency (BFE)
- Convenient earloop design allows you to slip on and remove mask quickly and easily.

Shoe Covers

- Manufactured of spunbond polypropylene
- Elastic openings provide a snug and comfortable fit
- Non-skid bottom offers improved floor traction
- Latex Free

Mask with Visor

- Advanced protection with level 3 filtration from potentially contaminated water and airborne pathogens
- Wrap around visor promotes full coverage
- Anti-Fog and Anti-Glare visor ensures clear view at all times
- Padded nose band extends wear time
- >99% Bacterial Filtration Efficiency (BFE)
- Convenient earloop design allows you to slip on and remove mask quickly and easily.
- Best option for full face coverage

Hip Length gown

- Gowns are made from quality materials and designed to keep you protected whilst offering the right fit in attractive colors
- Design and quality adheres to OSHA fluid resistance requirements
- Includes front snap closure and front pockets

Face Shield

- Rounded enclosure
- Padded forehead provides comfortable wear for extended periods
- Essential to prevent splash of fluids or airborne pathogens to the vulnerable mucous membranes of eyes and nose
- Anti-fog for clear view at all times

Cavi Wipes

- Disposable towelettes pre-saturated with CaviCide Surface Disinfectant Cleaner
- Thicker, Wetter, and more Durable than other brand product
- Proven to kill Corona Viruses with 3 minute contact time
- Kills TB in 3 minutes and HBV, HIV-1, MRSA, VRE in 2 minutes
- Non-toxic, low-alcohol, non-abrasive, non-corrosive, safe for all non-porous surfaces

Cavicide Spray

- Spray form of popular Cavi-Wipes
- Essential to any business looking to keep their work and customer areas clean and free of pathogens
- Proven to kill Corona Viruses with 3 minute contact time
- Kills TB in 3 minutes and HBV, HIV-1, MRSA, VRE in 2 minutes
- Non-toxic, low-alcohol, non-abrasive, non-corrosive, safe for all non-porous surfaces

VASTIZER Hand Sanitizer

- 75% alcohol content
- Available in 236mL (8oz), 500ml (16oz), 4 Litre bottles
- Essential for maintaining cleanliness and reducing risk of infection
- Contains Vitamin E and moisturizer to reduce harshness from extended use

Cotton tips

- Available in 3 and 6 inch handles
 - Made with bamboo to reduce risk of breakage and splintering
-

Microbrushes

- Essential for cleaning in small areas or hard to get to places on some equipment
 - Alternate uses: Eyelash extensions or removal, nail art, jewelry, makeup, ear cleaning, etc.
 - * Multiple sizes available
